Budget request: _____

Criteria for Proposal consideration

| Factor | Weight | Evaluation criteria | Points assigned |
|----------------------------------|---------------|--|------------------------|
| Capability and Experience | 15% | Proposal team must demonstrate capability and experience in the activities proposed including examples of previously successful projects | |
| Management Plan | 15% | Management plan, milestones and timelines must be included to allow measurement of progress to ensure adequate reporting and evaluation during course of project and it's successful completion | |
| Technical Approach | 20% | Adequacy of the technical approach to meet the needs of the stakeholders. Innovation and intellectual merit of technical solutions will be evaluated. | |
| Stakeholder Relevance/Engagement | 20% | Proposal must identify stakeholder engagement, clear stakeholder benefits and cost benefit analysis. At least one stakeholder from the sector the deliverables are designed to benefit must be part of the team. | |
| Data Management Plan | 10% | | |
| Budget Appropriateness | 10% | Proposal must clearly identify costs and justify those within the larger regional context. | |
| Non-IOOS Leveraging and Funding | 10% | Integration of non-IOOS support, resources and funding. Include a plan for transitioning proposed activities to stable funding source(s). | |
| Total | 100 | | |

Notes/Comments:
