GULF OF MEXICO
COASTAL OCEAN OBSERVING SYSTEM
GCOOS

GCOOS DATA PORTAL: SENSOR RECORD

For (Organization's short name): _____

For (Platform label)   : _____

Items	Parameters
Sensor ID or Local ID*	
Observation measured (e.g. winds, water temperature, atmospheric pressure, water currents)**	
Sensor Number***	
Vertical position (m)	
Instrument details (make and model, and other details)	
How to get data from this sensor	
Sensor Capacity	
- **Maximum value it can record**	
- **Smallest value it can record**	
- **Maximum operational depth/height**	

*Not all organizations maintain a sensor ID records. If such is the case, a sequential number from 1 be used.

**Submit one Sensor Record form for each type of observation measured (one form per sensor).

***If platform have more than one sensor observing the same phenomenon, use sequential numbers from 1 to separate the sensors to monitor.
