

1 November 2022

Saluation

As part of GCOOS recertification requirements for IOOS, we need to follow up with each subaward PI to make sure we are adhering to Equipment maintenance and best practices outlined in the IOOS application. There is a statement that should have been included in each award package but was unintentionally overlooked. We are trying to remedy this before submitting our recertification package later this week.

A simple “yes” answer is needed to the question below:

Do you agree to follow observational equipment best practices as suggested by the manufacturer or community, and provide equipment maintenance reports/logs by request?

If you have handy, it would be very helpful if you could attach a short/brief example of your maintenance procedure or log. This is not required but would be greatly appreciated.

Message sent to 12 GCOOS Subaward PIs (not Felimon—13th subaward) on 1 November 2022

NAME	RESPONSE
Chad Lembke (USF)	Yes on 1 Nov 2022
Brian Dzwonkowski (DISL)	Yes on 2 Nov 2022 (with Equipment Log)
Tony Knap (GERG)	Yes on 4 Nov 2022
Darren Heinricks (TAMU)	Yes on 1 Nov 2022 (w/ covid; can send log when returns to work)
Eric Milbrandt (SCCF)	Yes on 3 Nov 2022
Rich Pierce (MML)	Yes on 1 Nov 2022
Behzad Mortazavi (UAL)	Yes on 1 Nov 2022 (Kenneth Hoadley replied on behalf of BM)
Beth Stauffer (U LA-Laf)	Yes on 6 Nov (No unified procedure or log at this time but will work on generating one that can be shared upon request.)
Stephan Howden (USM)	Yes on 4 Nov 2022
Nan Walker (LSU)	Yes on 1 Nov 2022 (Chunyan Li replied on behalf of NW)
Ben Williams (Fugro)	Yes on 6 Nov 2022 (with maintenance template included)
